

The background of the entire page is a light blue, misty landscape. It features rolling mountains in the distance, a body of water in the foreground, and a traditional Chinese village with white-walled buildings and dark roofs along the water's edge. A stone bridge with multiple arches spans the water, and a small boat is visible on the water in the lower right.

# 2019 CHINA INTERNATIONAL CSP CONFERENCE CSPPLAZA 6TH ANNUAL CONFERENCE ACTIVITY PROGRAM

# Conference Background

The global CSP market has achieved remarkable results in the past two years. The emerging solar thermal market represented by China, Morocco and the United Arab Emirates is gradually maturing, which has effectively promoted the cost reduction of CSP, affecting the future development of the solar thermal industry.

However, the future development of the CSP industry is facing severe challenges due to factors such as increasing instability and uncertainty, insufficient incentives of policies and insufficient participation of capital, increasing cost pressure from solar PV and wind power, commercialization acceleration of electric energy storage, etc.

# Conference Theme

## Building the Global CSP Community

We are currently at the key historical node of the development of the solar thermal industry. We need the participation and close cooperation of the global solar thermal industry chain to meet the challenges.

Therefore, the theme of the 2019 China International CSP Conference & CSPPLAZA 6th Annual Conference is **“Building the Global CSP Community”**.

Based on this theme, the conference will call on the global CSP industry chain to establish common goals, maintain concerted action and achieve common development! By building a global CSP community, we will work together to stimulate the growth of CSP, promote cost reduction, adapt to the new development of the power market, and release the new potential of solar thermal technology!

Focusing on this theme, this conference will initially set up a main forum and eight sub-forums, inviting more than 60 professional speakers and gathering more than 800 guests at home and abroad to systematically, in-depth and comprehensively explore the hot topics related to the development of the CSP industry.

# Basic Information

**Organizer:** CSPPLAZA

**Conference time:** July 10-12, 2019

**Duration:** three days

**Conference venue:** Shangri-La Hotel, Suzhou

**Conference positioning:** The largest and the most professional international annual event in China's CSP industry

**Conference scale:** 800+ people

**Exhibition scale:** 60+ exhibitors

**Annual AWARDS:** Release CSPPLAZA AWARDS 2019

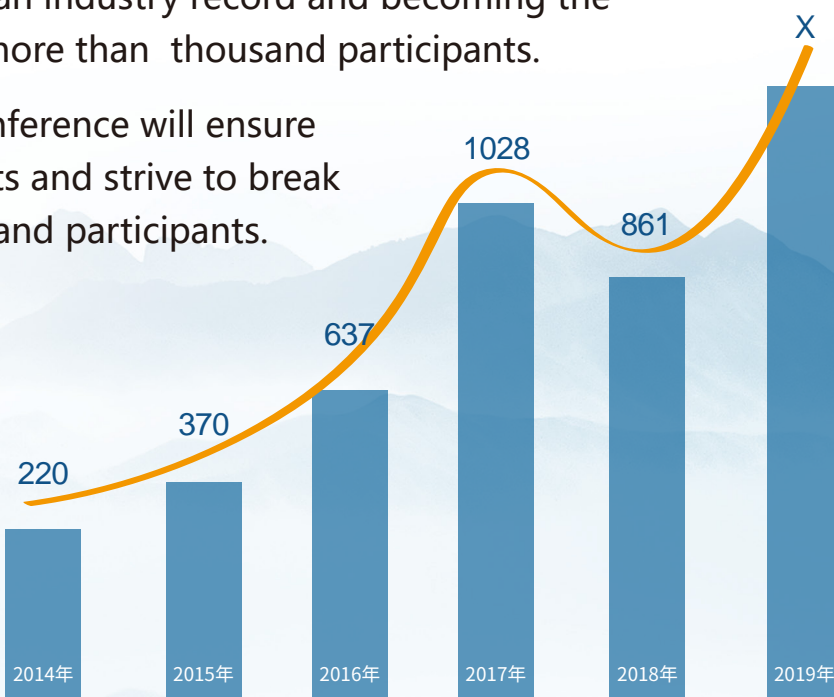

# Conference Scale

The 2017 China International CSP conference in Hangzhou has 1,028 participants, setting an industry record and becoming the first CSP conference with more than thousand participants.

On this basis, the 2019 Conference will ensure the scale of 800 participants and strive to break through the scale of thousand participants.

The conference will be open to the global CSP market, and invite people from home and abroad to come to Suzhou for a grand event. It is expected that there will be 150 overseas guests.

# Conference Content

The content of the conference will cover the hot topics of the global CSP industry, mainly involving the market and technology. The conference will refine the design of the theme from multiple perspectives, and set up main forum and sub-forums to systematically, in-depth and comprehensively explore the hot topics related to the development of the CSP industry.

The conference will invite professional guests at home and abroad, and strictly control the quality and level of the conference. CSPPLAZA, the organizer of the conference, has always attached great importance to the quality assurance of the conference content and never set up speech sponsorship.

The organizer will identify the speakers according to their qualifications and the the quality of speech content, all of which are based on whether the speech can bring genuine gains to the audience.

# Agenda Overview

July 10th,  
2019

## General Assembly:

- ◆ Development status and trend of global CSP market
- ◆ The development road of CSP under the new market situation
- ◆ The background and significance of building the global CSP community
- ◆ CSPPLAZA AWARDS 2019 Awards Ceremony

July 11th,  
2019

## Sub-forum:

- ◆ Sub-forum 1: Financing of CSP Industry
- ◆ Sub-forum 2: Construction and O&M of China's CSP demonstration projects
- ◆ Sub-forum 3: Innovation and Application of CSP Technology
- ◆ Sub-forum 4: Construction and O&M of Overseas CSP projects

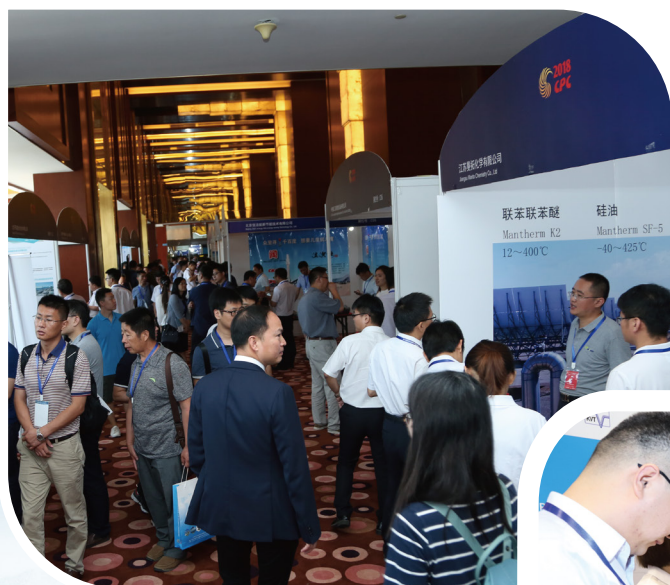

July 12th,  
2019

## Sub-forum:

- ◆ Sub-forum 5: Diversified Market Application of concentrating solar heat and heat storage technology
- ◆ Sub-forum 6: Symposia I on Supply chain Development of CSP Industry
- ◆ Sub-forum 7: Symposia II on Supply chain Development of CSP Industry
- ◆ Sub-forum 8: Engineering Consulting Services for CSP Projects

# Exhibition Area

On the basis of 67 exhibitors in 2017 and 66 exhibitors in 2018, 2019 China International CSP Conference will strive to achieve the scale of 60 exhibitors, and fully display the state of the art products and technologies at home and abroad to promote in-depth exchanges and cooperation between supply and demand sides.

# Annual Awards

The conference will release the CSPPLAZA AWARDS 2019 CSP Industry Annual Awards to set the industry benchmark and promote the spirit of the leader!

# Supply Chain Guide

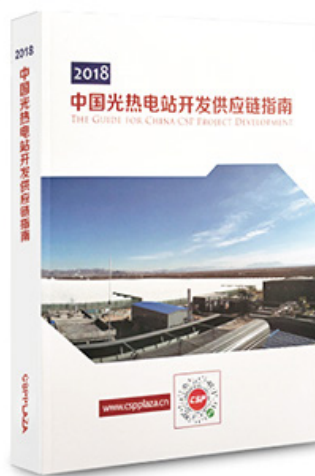

The Supply Chain Guide For China CSP project development

The Guide was first released in 2016.

The 2018 edition of the Guide has included more than 500 supply and demand information for 311 enterprises from the global CSP industry.

The Guide is now an essential tool to help buyers quickly find quality suppliers and help suppliers to more accurately grasp market demand and achieve efficient market expansion.

CSPPLAZA will rely on its China CSP development supply chain website and WeChat small program to fully optimize and update the content of the guide, and publish the 2019 version during the CSPPLAZA2019 annual Conference, which is expected to include more than 500 supply and demand information from more than 400 enterprises. This version will be the fifth update of the guide.
